

Tablecloth – maternity feedback

Good communication between staff, keeping me informed.

Community midwives really good.

Baby clinic hours aren't very flexible. Hours: 9.00am – 11.30am. Not very flexible – could be varying times.

Post baby care - felt comfortable contacting labour ward / midwife for advice.

Felt comfortable from the way I was treated in hospital, Reassuring if you need anything. I could ring.

Right balance between checking on me and leaving me to my own devices.

Hospital food – what would be expected about what was in hospital.
